Professionals in all sectors
of the economy

Digital Transformation

The university is actively developing its distance learning system and implementing electronic platforms and digital educational resources to ensure access to quality education.

An innovative approach

The use of modern teaching methodologies, interactive technologies, and practical case studies to train professionals who are prepared to meet the challenges of today's market.

University Structure

The State Tax University comprises five specialized faculties and institutes, each of which is a leader in its field of professional training:

- 1** School of Finance and Digital Technologies
Training of professionals in the fields of finance, banking, the digital economy, and financial technology
- 2** Department of Taxation, Accounting, and Auditing
Specialization in taxation, accounting, auditing, and financial control
- 3** School of Law
Comprehensive training for lawyers in the public sector, business, and civil society
- 4** Faculty of Economic Security and Customs Affairs
Training of specialists in the fields of customs affairs, economic security, and customs control
- 5** Faculty of Social Sciences, Humanities, and Management
Training of managers, public administration professionals, and specialists in the social sciences and humanities

Each faculty has its own research and teaching infrastructure, departments, and research units, ensuring a high level of academic and research activity.
